Software Ecosystem Map

Energy Management
Navigator, Energy & asset performance analytics, stored historical data

IndoorViewer
Indoor navigation, 3D scan, pointcloud, timeline data, browser application

Building Management Platform
Desigo CC
technical FM, BIM Viewer

model data
temperature, humidity, movement, occupancy,…

CMMS
Tec.off, predictive maintenance, space management, asset management, technical facility management

Model Checker
collision checking, rule based Issue and Quality Management

CDE Platform
Document Management, 3D/2D Viewer, Asset/Issue/Field Management, QM, Mobile APP

IFC Models
Model View Definitions for building automation, architecture and HVAC

BIM Authoring Software
Modelling, Design & Coordination

BIM 360
BCF-based issue management with BIMcollab
